- Paperless reporting
- Forms that suit your needs
- Realtime report creation
- Raises expectation & quality
- MIL-STD-810G & IP-65
- Android platform 
- Optional interface with most ERP/MMRS under development

Request a demonstration and see how this innovative tool can help you improve your operation

TECOMIND

info@tecomind.ca / 418 931 2909

We create user-friendly interactive forms that will meet your specific needs.

The Teco-Rep Inspection tool is an Android application that runs on a military spec tablet.

The tool guides you to perform your work while the inspection report is created, based on pre-defined interactive forms.

The different forms will be developed specifically to suit your needs and can cover a wide variety of situations, including Health and Safety Inspection, Maintenance Checklist, Structural Inspection, Project Tracking Sheet and more.

The user-friendly approach makes this tool the perfect companion for your operation.

**ROUTINE INSPECTION 1**

**Engine**

Liqui Added: F, L

Found any Oil Leak?  No  Yes

Abnormal Noise?  No  Yes

Oil Replaced?  Yes  No

Oil Filter Replaced?  Yes  No

Comments: Do oil change at next service. See picture # 2 of oil leak.

Indicate area of concern

Serial #: abcd1234

Op. Hours: 5,678

Found any Oil Leak?  No  Yes

Found any Fuel Leak?  No  Yes

Found any Coolant Leak?  No  Yes

Defective Injector?  No  Yes

Loose or missing Hardware?  No  Yes

Fault Code is present?  No  Yes

Comments: Bad oil leak that must be fixed during next PM.  
Seal need to be replaced.  
Estimated 3 hours of work.

The tasks are well defined and make the review of the report easy, avoiding any misinterpretations. The format is designed to please the eye.

To highlight areas of concerns, the PEN tool lets you draw on specific area of the inspection forms, including over the pictures.

Once you are ready to share the results of your inspection, the SHARE tool gives you several options on how to securely share your report.

The CAMERA tool let you take and edit high quality pictures. The pictures are inserted at specific locations in the forms.

Other functionalities that can be incorporated inside the forms include: Comment Lines, Combo Box, Text Box, Instruction Link, Picture Area, Signature Area, Sketch Area, Check Box and much more.
